Limited Review Report on Consolidated Interim Financial Statements

To: The Board of Directors of El-Saeed Company For Contracting and Real Estate Investment "SCCD" (S.A.E)

Introduction

We have reviewed the accompanying consolidated interim Statement of financial position of **El-Saeed Company for Contracting and Real Estate Investment "SCCD" (S.A.E)** as of 31 March 2026, as well as the related consolidated interim statements of profit or loss, comprehensive income, changes in equity and cash flows for the three months then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these Consolidated interim financial statements in accordance with the Egyptian Accounting Standard. Our responsibility is to express a conclusion on these Consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with Egyptian Standard on Review Engagements No. (2410), "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these consolidated interim financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not give a true and fair view, in all material respects, of the consolidated interim financial position of **El-Saeed Company for Contracting and Real Estate Investment "SCCD" (S.A.E)** as of 31 March 2026 and its consolidated interim financial performance and its consolidated interim cash flows for the three months then ended in accordance with the Egyptian Accounting Standards.

The company may have an interest or participate in any way with companies and others that carry out similar business or that may assist it in achieving its purpose in Egypt or abroad. It may also merge with, buy or join the mentioned parties in accordance with the provisions of the law No. 159 of 1981 and its executive regulations.

The consolidated financial statements for the three months ended 31 March 2026 were authorized for issuance in accordance with the Board of Directors' resolution on 23 June 2026.

The parent company is **Pioneers Properties for Urban Development Company - PRE GROUP (S.A.E)**.

Company's Branches

The company has branches in the Kingdom of Saudi Arabia and Libya, and the financial statements of the branches are included in the financial statements of the company, and the translation differences are included in a separate item within the comprehensive income in equity.

2-1 Basis Of Preparation Of Financial Statements

The consolidated financial statements have been prepared under the going concern assumption on a historical cost basis, except for financial assets and investments at fair value through profit or loss, and investments at fair value through comprehensive income measured at fair value.

The consolidated financial statements were prepared and presented in Egyptian pounds, which is the Company's functional currency.

Statement Of Compliance

The consolidated financial statements of the Company have been prepared in accordance with the Egyptian Accounting Standards and the applicable laws and regulations.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-1 Basis Of Preparation Of Financial Statements (Cont'd)****Changes In Accounting Policies and Disclosures**

-Accounting policies applied this period is the same as in the previous years.

2-2 Scope Of Consolidated Financial Statements

The consolidated financial statements include subsidiaries controlled by El-Saeed Company for Contracting and Real Estate Investment.

The following table presents the subsidiaries included in the consolidated financial statements:

Subsidiary Company	Share	Share
	31 March 2026	31 December 2025
Gamma for Urban Development Company (S.A.E)	%24,5	%24,5
Segma for Urban Development Company (S.A.E)	%79.997	%79.997

Subsidiary Companies

Subsidiary companies are companies under the control of the group when the group has the ability to control the financial and operational policies of those companies to obtain benefits from their activities. When assessing the existence of control, both current and potential voting rights at the date of preparation of the consolidated financial statements are taken into account. The financial statements of subsidiary companies are included in the consolidated financial statements from the acquisition date until the date the parent company loses control over the subsidiary.

Consolidation Principles

The following steps are followed when preparing the consolidated financial statements:

A. The carrying value of the parent company's investment in each subsidiary is eliminated along with the parent's share of equity in each subsidiary.

B. The non-controlling interests' share in the net income/loss of the consolidated subsidiaries during the year for which the financial statements are prepared is determined.

C. The non-controlling interests' share in the net assets of the consolidated subsidiaries is determined and presented in separate financial statements from the parent's equity. The non-controlling interests' share in the net assets consists of:

(1) The non-controlling interest at the original consolidation date.

(2) The non-controlling interest in the changes in ownership from the consolidation date.

D. All balances of transactions, revenues, and expenses between group companies are fully eliminated.

The financial statements of the parent company and the financial statements of the subsidiaries used in preparing the consolidated financial statements are as of the same date.

The consolidated financial statements are prepared using consistent accounting policies for similar transactions and events under the same conditions.

Non-controlling interests are presented within equity in a separate component from the equity of the parent company. The non-controlling interest's share in the group's profit or loss is also presented separately.

The entity is required to allocate the profits or losses and each component of other comprehensive income to the owners of the parent company and the non-controlling interests. The entity should also allocate the total comprehensive income to the owners of the parent company and the non-controlling interests, even if it results in a deficit.

The non-controlling interest in the subsidiaries in the consolidated financial statements is as follows:

Subsidiary Company	Share	Share
	31 March 2026	31 December 2025
Gamma for Urban Development Company (S.A.E)	%75,5	%75,5
Segma for Urban Development Company (S.A.E)	%20,003	%20,003

2-3 Significant Accounting Judgments And Estimates

The preparation of these financial statements requires management to make judgments and estimates that affect the values of revenues, expenses, assets, and liabilities included in the financial statements and the accompanying disclosures, as well as the disclosure of potential liabilities at the date of the financial statements. Uncertainty surrounding these assumptions and estimates may result in outcomes that require a material adjustment to the carrying amount of the affected assets and liabilities in future periods.

Estimates and related assumptions are reviewed on a regular basis. Adjustments to accounting estimates are recognized in the period in which the estimates are revised.

The following are the main judgments and estimates that have a material impact on the company's financial statements:

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-3 Significant Accounting Judgments And Estimates (Cont'd)****2-3-1 Judgments****Recognition Of Revenue Arising From The Sale Of Products**

When making its own judgments, the management considered the detailed requirements for recognizing revenue arising from the sale of products as set out in Egyptian Accounting Standard No. (48) Revenue from contracts with customers, especially if the company has transferred substantial risks and rewards to the buyer, arising from the ownership of real estate units.

2-3-2 Estimates**Impairment Of Trade Receivable And Other Debit Balances**

An estimate of the collectable amount of trade receivable and other debit balances is made when collection of the full amount is no longer expected. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision applied according to the time that has elapsed since the due date, based on historical recovery rates.

The Useful Life Of Fixed Assets

The company's management determines the estimated useful life of fixed assets for the purpose of calculating depreciation. This estimate would be determined after considering the expected useful life of the asset or the physical depreciation of the assets. Management periodically reviews the estimated useful life and depreciation method to ensure that the method and duration of depreciation match the expected pattern of economic benefits arising from these assets.

Tax

The company is subject for the income tax imposed in Egypt. Significant judgments must be made in determining the total provisions for current and deferred taxes. The company has made the provisions, based on reasonable estimates, considering the potential consequences of the examinations conducted by the tax authorities in Egypt. The amount of this provision is based on several factors, including experience with previous tax examinations and differing interpretations of tax regulations by the Company and the responsible tax authority. Such differences of interpretation may arise in several subjects, according to the prevailing conditions in Egypt at the time.

Deferred tax assets are recognized for unused carried forward tax losses so that they are likely to be offset by taxable profits in which case these losses can be used to cover. The significant management judgment must determine the amount of deferred tax assets that can be recognized, based on the probable timing and level of future taxable profits together with planning strategies tax future.

Impairment Of Non-Financial Assets

The Company assesses whether there are indications of impairment in the value of non-financial assets in each reporting period. Non-financial assets are tested for impairment when there are indications that the carrying amount may not be recoverable. When calculating value in use, management estimates the expected future cash flows from the asset or cash-generating unit and chooses an appropriate discount rate in order to calculate the present value of those cash flows.

2-4 Summary Of Significant Accounting Policies**2-4-1 Revenue Recognition****Revenue From Contracts With Customers**

An Egyptian standard no.48 revenue from contract with customers set out five step model to be applied as follow:

Step one: Identify the contract (contracts) with the customer. A contract is an agreement between two parties or more creates enforceable rights or obligations. A company applies the revenue guidance to contracts with customers.

Step two: Identify the separate performance obligations in the contract. A performance obligation is a promise in a contract to provide a product or service to a customer.

Step three: Determine the transaction price. The transaction price is the amount of consideration that a company expects to receive from a customer in exchange for transferring goods and services, except the amount that collect on behalf of third parties.

Step four: Allocate the transaction price to the separate performance obligations. If more than one performance obligation exists in a contract, allocate the transaction price based on relative standalone selling prices.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary Of Significant Accounting Policies (Cont'd)****2-4-1 Revenue Recognition (Cont'd)**

Step five: Recognize revenue: when the company satisfies its performance obligation.

Companies satisfy performance obligations and recognize revenue over a period of time if one of the following criteria is met.

- a. The customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs.
- b. The entity's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- c. The entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

If an entity does not satisfy its performance obligation over time according to previous conditions, the entity will recognize revenue at point in time when performance obligation is satisfied.

Contracting Revenue

Revenues from construction contracts include the initial value of each construction contract in addition to order changes, incentives, or subsequent claims, provided that sufficient expectation exists for the realization of that value and the reliability of its estimate.

Where the results of the contract can be reliably estimated, revenues from construction contracts are recognized in accordance with the percentage of completion method according to the nature of the contract as follows:

- **Long-term contracts:** The percentage of completion is determined according to the limitation of the executed works method. The contract costs incurred to meet this revenue are recognized.
- **Short-term contracts:** Short-term contract revenue is recognized in accordance with accounting for the work performed method and the actual costs incurred to meet the revenue.

Where a contract revenue cannot be reliably estimated, revenue is recognized within the limit of the actual cost incurred and is expected to be recovered.

Any expected loss of the contract is recognized as an expense in the event that the expected total cost of the contract is likely to exceed the total revenue of the contract irrespective to the percentage of completion of the contract.

Any increase (decrease) in the value of income calculated according to the percentage of completion than the actual bill of progress issued to the client is charged to the clients' account.

Units' Sales

Housing and developments projects revenue is recognized on the sale of unit when all risks and rewards is transferred to the buyer and realized by the completion of the actual contract of the unit.

Sale On Installments

The net present value of the sold unit is recognized as income on the date of sale. The selling price is the present value of the consideration and is determined by discounting the amount of premiums receivable using the targeted interest rate. Deferred interest is recognized as income when earned and on a time proportion basis taking into account the targeted interest rate.

Interest Income

Interest income is recognized as interest accrues according to timeline considering the targeted return on the financial asset.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary Of Significant Accounting Policies (Cont'd)****2-4-2 Borrowings**

Borrowings are initially recognized at the value of the consideration received. Amounts maturing within one year are classified as current liabilities, unless the Company has the right to postpone the settlement for a period exceeding one year after the balance sheet date, then the loan balance should be classified as long-term liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the consolidated statement of profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process in the statement of profit or loss. Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in the statement of profit or loss.

2-4-3 Borrowing Cost

Borrowing cost directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing cost consists of interest and other costs that an entity incurs in connection with the borrowing of funds.

Capitalization cost of borrowing expenses should be stopped during the periods which the contract process for the assets is postponed.

2-4-4 Income Taxes

Income tax is calculated in accordance with the Egyptian tax law.

Current Income Taxes

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority.

Deferred Income Taxes

Deferred income tax is recognized using the liability method on temporary differences between the amount attributed to an asset or liability for tax purposes (tax base) and its carrying amount in the statement of financial position (accounting base) using the applicable tax rate.

Deferred tax asset is recognized when it is probable that the asset can be utilized to reduce future taxable profits and the asset is reduced by the portion that will not create future benefit.

Current and deferred tax shall be recognized as income or an expense and included in the statement of income for the period, except to the extent that the tax arises from a transaction or an event which is recognized, in the same or a different period, directly in equity.

2-4-5 Fixed Assets**Initial recognition**

The cost of any fixed asset item is recognized as an asset only when:

A- Metabolic economic benefits are likely to flow from this item.

B - The cost of the item can be measured reliably.

Subsequent measurement

The entity must choose either the cost model or the revaluation model as the accounting policy, and that policy must be applied to each class of fixed assets in its entirety.

Cost Model

Fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment losses. Such cost includes the cost of replacing part of the fixed assets when that cost is incurred if the recognition criteria are met. Likewise, when a major improvement is performed, its cost is recognized in the carrying amount of the fixed assets as a replacement if the recognition criteria are satisfied. All other repair and maintenance.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary Of Significant Accounting Policies (Cont'd)****2-4-5 Fixed Assets (Cont'd)**

costs are recognized in the Consolidated statement of profit or loss as incurred.

Depreciation of an asset begins when it is in the location and condition necessary for it to be capable of operating in the manner intended by management, and is computed using the straight-line method according to the estimated useful life of the asset as follows:

	Years
Buildings	10-50
Machinery and equipment	5-20
Vehicles	10-20
Furniture	10-17
Wood	2.5-10
Tools	2.5- 20

Fixed assets are derecognized upon disposal or when no future economic benefits are expected from their use or disposal. Any gain or loss arising from derecognizing the asset is included in the statement of profit or loss when the asset is derecognized.

Post-acquisition costs

The cost of substantial renovations is recognized on the cost of fixed assets by the cost of replacing a component of that item when it is likely to bring future economic benefits to the company with the possibility of reliably measuring the cost and depreciating over the remaining useful life of the asset or the expected useful life of such renovations, whichever is less, and other costs are recognized in the statement of profits or losses as expenses when incurred.

The residual values of assets, their useful lives and methods of depreciation are reviewed at the end of each fiscal year.

The company periodically on the date of each budget

The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end.

The company periodically on the date of each budget the Company assesses at each balance sheet date whether there is an indication that fixed assets may be impaired. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the Consolidated statement of profit or loss. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such a reversal is recognized in the statement of profit or loss.

2-4-6 Investment properties

Investment properties that are held for rent or appreciation or both are initially measured at cost, Cost includes purchase price or construction cost and any directly attributable expenses, after initial recognition, investment properties are measured at fair value from an independent resident registered with the Public Financial Supervisory Authority and the differences of valuation recognized in profit or loss statement.

The company performs a valuation of its investment properties each year, unless there is a material change in the fair value of these investments.

2-4-7 Projects Under Construction

Projects under construction represent the amounts that are incurred for the purpose of constructing or purchasing assets until it is ready to be used in the operation, upon which it is transferred to relevant asset category. Projects under construction are valued at cost less decline in value.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary Of Significant Accounting Policies (Cont'd)****2-4-8 Impairment Of Non-Financial Assets**

The Company assesses at each reporting date whether there is an indication that an asset may be impaired, where the carrying amount of an asset or cash-generating unit's (CGU) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount, impairment losses are recognized in the statement of profit or loss.

A previously recognized impairment loss is only reversed if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, had no impairment loss been recognized for the asset in prior periods, such reversal is recognized in the statement of profit or loss.

2-4-9 Cash and Cash Equivalents

For the purpose of preparing the statement of cash flows, cash and cash equivalents include cash in hand, current accounts in banks and time deposits that mature within three months.

2-4-10 Accounts Payable And Other Credit Balances

Liabilities are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

2-4-11 Provisions

Provisions are recognized when the company has a current legal or constructive obligation as a result of a past event, and with it is expected that this will require an outflow of economic resources to settle the obligation, with the ability to make a reliable estimate of the amount of the obligation, and the provisions are reviewed on the date of the balance sheet and adjusted to show the current best estimate and when If the effect of the time value of money is material, the amount recognized as a provision should be the present value of the expenditure expected to be required to settle the obligation.

2-4-12 Foreign Currency Translation

The financial statements are prepared and presented in Egyptian pound, which is the Company's functional currency.

Transactions in currencies other than Egyptian pound are initially recorded using the prevailing exchange rates on the transaction date.

Monetary assets and liabilities denominated in currencies other than Egyptian pound are retranslated using the exchange rates prevailing at the statement of financial position date, all differences are recognized in the statement of profit or loss.

Nonmonetary items that are measured at historical cost in currencies other than Egyptian pound are translated using the exchange rates prevailing at the date of the initial recognition.

Nonmonetary items measured at fair value in currencies other than Egyptian pound are translated using the exchange rates prevailing at the date when the fair value is determined.

2-4-13 Related Parties' Transactions

Related parties represent associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled, or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the board of directors. Pricing policies and terms of these transactions with related parties are similar to those with others.

2-4-14 Statement Of Cash Flows

The statement of cash flows is prepared using the indirect method.

2-4-15 Expenses

All expenses including operating expenses, general and administrative expenses and other expenses are recognized and charged to the statement of profit or loss in the financial period in which these expenses were incurred.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026

2-4 Summary Of Significant Accounting Policies (Cont'd)

2-4-16 Inventory

Inventory items are valued as follows:

- A - Raw materials and packaging materials at cost using the weighted average method) or net realizable value, whichever is less.
- B - Spare parts at actual cost using the weighted average method or net realizable value, whichever is less.
- C - Fuel and supplies at cost using the weighted average method (weighted average or net realizable value, whichever is lower.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost necessary to complete the sale.

A decrease in the value of inventories to net value is recognized in the cost of sales in the statement of profit or loss in the year in which the decline or loss occurred. The refund of the decrease in the inventory resulting from the increase in the net realizable value is recognized in the profit or loss statement as a reduction from the cost of sales in the year in which the refund occurred.

**2-4-17 Housing And Development Projects (Unfinished - Finished)
Unfinished Projects**

It includes the cost of acquiring land for use in construction and housing projects, in addition to all costs related to the development and development of that land, as well as the construction cost of units that have not reached the completion stage.

Finished Projects

It includes the cost of acquiring the land and the cost of preparing, developing, developing and providing it with facilities, as well as the cost of construction that may be built on it and other costs incurred by the facility to bring it to a condition that makes it usable.

On the date of the financial position, housing and construction projects are evaluated according to cost or net realizable value, whichever is less, and charge the profit or loss statement with the value of impairment for cost, if any.

2-4-18 Trade And Notes Receivable

Trade And Notes Receivable are stated at amortized cost net of any impairment losses.

Impairment losses are measured as the difference between the accounts and other receivables carrying amount and the present value of estimated future cash flows, the impairment loss is recognized in the statement of profit or loss, reversal of impairment is recognized in the statement of profit or loss in the period in which it occurs.

2-4-19 Investments

Investments At Fair Value Through Profit Or Loss

Investments at fair value through profit or loss are financial assets classified according to fair value model, as either held for trading acquired for the purpose of selling in the near term or financial assets designated upon initial recognition at fair value through profit or loss.

Investments at fair value through profit and loss are initially recognized at fair value.

Investments at fair value through profit and loss are carried in the financial position at fair value with gains or losses recognized in the statement of profit or loss.

Gains or losses from sale of an investments at fair value through profit or loss shall be recognized in the statement of profit or loss.

Investments In Associates

Investments in associates are investments in entities which the company has significant influence and that is neither a subsidiary nor an interest in a joint venture, significant influence is presumed to exist

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary Of Significant Accounting Policies (Cont'd)****2-4-19 Investments (Cont'd)**

when the company holds, directly or indirectly through subsidiaries 20 percent or more of the voting power of the investee, unless it can be clearly demonstrated that this is not the case.

Investments in associates are accounted for using the equity method and according to the equity method the investment in any associate company is recognized initially at cost. Then the investment balance is increased or decreased to prove the company's share in the investee company profit or loss among the company's profit or loss, the investment balance is decreased by dividends value acquired from the investee company.

2-4-20 Lease Contracts

Contract is defined to be (or include) a lease contract based on its contents, The contract is a lease contract or include a lease contract if it transfers the control over the use of the asset described for a period for a price.

At the commencement of the contract, lease is classified as a financial lease or operating lease; where the contract is classified as a financial lease if it transfers in a material respect mostly all the risks and rewards from owning the contractual asset and classified as an operating lease if it doesn't transfer in a material respect mostly all the risks and rewards from owning the contractual asset.

At the commencement of the contract, asset is measured (right of use) at cost, where cost includes all initiation costs incurred to prepare the asset to the condition required as per the contract.

The lease liability is measured by the fair value of the unpaid lease payments at the date, deducting the lease payments using the imbedded interest in the contract, if it can be easily measured, or using interest on extra lending for the lessor if it can't be measured, in addition to any other variable payments, expected payments, and price for the right of purchasing the asset, according to the contract.

Interest on lease payments, or any variable payments not included in the measurement of the lease liability is included in the statement of profits or losses.

If the lease contract transfers the ownership of the asset, or the asset cost reflects the right of purchasing the asset, the asset is amortized over its useful life (right of use), and except for that, the asset is amortized (right of use) starting from the contract commencing date till its useful life (right of use) or the end of the contract date, whichever is shorter.

The Company assesses at each reporting date whether there is an indication that asset may be impaired, Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount, impairment loss is recognized in the statement of profits or losses.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized, The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of amortization, had no impairment loss been recognized for the asset in prior periods, such reversal is recognized in the statement of profits or losses.

2-4-21 Social Insurance

The company makes contributions to the General Pension and Social Security Authority and is calculated as a percentage of the employees' salaries. The company's obligations are limited to these contributions, which are charged to expenses when due.

2-4-22 Legal Reserve

According to the Company's articles of association, 5% of the profits are transferred to the legal reserve until this reserve reaches 50 % of the capital, the reserve is used upon a decision from the general assembly meeting according to board of directors' suggestion.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary of Significant Accounting Policies (Cont'd)****2-4-23 Fair Value Measurement**

Fair value is the price that a company would receive to sell an asset or the consideration paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place in the principal market for the asset or liability or the market in which the asset or liability has the most interest.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Measurement at the fair value of a non-financial asset considers the market participant's ability to generate economic benefits by using the asset to the maximum extent acceptable or by selling it to another market participant who would use the asset to its maximum potential.

For assets traded in an active market, fair value is determined by reference to quoted market bid prices.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for similar items with similar terms and risk characteristics.

As for unlisted assets, the fair value is determined by reference to the market value of a similar asset or based on the expected discounted cash flows.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are classified into material categories on the fair value measurement as a whole:

- Level 1: Using trading prices (unadjusted) for identical assets or liabilities in active markets
- Level 2: Using inputs other than the trading prices given in Level 1, but observable for the asset or liability directly (i.e., prices) or indirectly (i.e., derived from prices).
- Level 3: using valuation techniques that include inputs to the asset or liability that are not based on observable market data.

With regard to assets and liabilities that are recognized in the financial statements on a recurring basis, the entity determines whether transfers have occurred between the three levels of the hierarchy by Re-evaluating the classification at the end of the reporting period.

For the purposes of fair value disclosures, the company has developed categories of assets and liabilities based on their nature, characteristics, risks associated with each of them and the level at which they are classified in the fair value hierarchy as shown above.

Preparing the financial statements in accordance with Egyptian accounting standards requires management to make estimates and assumptions that affect the values of assets, liabilities, revenues and expenses during the financial periods, and the actual results may differ from those estimates.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary of Significant Accounting Policies (Cont'd)****2-4-24 Financial Instruments****Initial Recognition**

The institution is to recognize in the balance sheet the financial asset, or liability only when the institution is a contractual part in a financial instrument.

At initial recognition the financial asset, or liability is measured at fair value if they are classified as financial assets, or liabilities at fair value through profits or losses.

At initial recognition, the financial assets classified as financial assets at fair value through other comprehensive income, and financial assets at amortized cost are recognized at fair value plus the transaction cost.

At initial recognition, the financial liabilities classified as amortized cost are recognized at fair value minus the transaction cost.

Classification And Measurement Of Financial Assets And Liabilities

The Egyptian standard number (47) – Financial Instruments include three main categories based on the subsequent measurement for the financial assets, as follows:

- Financial assets by amortized cost.
- Financial assets at fair value through other comprehensive income.
- Financial assets through profits or losses.

In general, the classification of the financial assets as per the Egyptian standard number (47) Financial Instruments is based on the business model managing the financial asset and related contractual cash flows.

Financial assets are classified based on amortized cost, or fair value through other comprehensive income, or fair value through profits or losses.

The financial asset is classified based on the business model managing the financial asset and related contractual cash flows.

Financial assets are measured by amortized cost, if two conditions were met, and if was not measure by fair value through profits or losses.

- The asset is included in a business model planning to keep the asset for its contractual future cash flows.
- The asset contractual conditions generate cash flows in specific dates, based on only the asset and related interest payments for the principal amount due.

The debt instrument is measured at fair value through other comprehensive income, if two conditions were met, and if was not measured by fair value through profits or losses.

- The asset is included in a business model. Its goal is to collect contractual cash flows and sale of the financial asset.
- The asset contractual conditions generate cash flows in specific dates, based on only the asset and related interest payments for the principal amount due.

The financial asset must be measured at fair value through profits or losses, if not measured by the amortized cost, or at fair value through comprehensive income.

The institution can, without recourse, assign a financial asset to be measured at fair value through profits or losses, if this would materially result in reducing the volatility of measurement and recognition.

The institution must classify all its assets to be subsequently measure at amortized cost, except for the following:

- Financial liabilities at fair value through profits or losses, where those kinds of liabilities and related derivatives represent these liabilities, subsequently, at fair value.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary of Significant Accounting Policies (Cont'd)****2-4-24 Financial Instruments (Cont'd)****Classification And Measurement Of Financial Assets And Liabilities (Cont'd)**

- Financial liabilities resulting from financial asset not qualified to be disposed from books, or when continuous interference is not applicable, in accordance with the Egyptian accounting Standards, like those financial liabilities.
- Financial guarantee contracts: after initial recognition, the issuer must subsequently measure the contract in accordance with the Egyptian Accounting Standards, by the larger one of the two following amounts:
 - A. Impairment loss in accordance with Egyptian accounting standard.
 - B. Or the recognized balance- initially minus, when it is applicable, the consolidated income balance recognized in accordance with the Egyptian Accounting Standard number (48).
- Granting loans engagements with a lower interest than the market: the issuer must in accordance with the Egyptian Accounting Standards, by the larger one of the two following amounts:
 - A. Impairment loss in accordance with Egyptian accounting standard.
 - B. Or the recognized balance- initially minus, when it is applicable, the consolidated income balance recognized in accordance with the Egyptian Accounting Standard number (48).
- Expected return recognized by the acquirer through consolidation applied by the Egyptian accounting Standard number (29), where subsequent measurement for such return must be in fair value, with changes are to be recognized through profits and losses.
The institution can, without recourse, assign a financial asset to be measured at fair value through profits or losses, when applicable by the Egyptian Accounting Standards, or when it results in better information, for:
 - A. Eliminate, or materially reduce – the measurement or recognition non-steadiness (shown as – sometimes- as "accounting non uniformness"), resulting from, except from that, measuring the assets and liabilities, or profits or losses recognition, from it, on different bases.
 - B. There were other financial liabilities, or financial assets, managed and performance valued based on fair value bases, in accordance with the approved strategy for managing risks and investments; and internally, information is presented for this group on this base to the top management of the institution (also as defined in the Egyptian accounting standard number (15) "Disclosing the Related Party", example, the institution board of directors and the managing president.

Financial assets and liabilities – re-classification:

Financial instruments are re-classified only when the financial model of the portfolio as a total change.

Impairment Of Financial Assets Value

The "Expected Credit Loss" model is applied on the financial assets measured at amortized cost, and contractual assets, and debt investments, at fair value through other comprehensive income, but not based on investments in equity.

The company evaluates all available information, including future-based information for the expected credit losses related to the included assets at amortized cost.

The "Expected Credit Loss" model is based on whether there is an increase in the expected credit losses. And to value if there is a material increase in credit risk, the failure to pay risk, at the financial statements date, is compared with the failure to pay risk at the initial recognition date, according to all the available information, and reasonable supporting future information.

As for only trading debtors' balances, due from related parties, and cash and cash equivalent, the company recognize the expected credit losses according to simple approach as per Egyptian Accounting Standard number (47).

The simple approach for recognizing expected credit losses, don't require the company to track the credit risk changes, but it can recognize impairment losses according to the permanent expected credit losses, at the preparation date of the consolidated financial statements.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**2-4 Summary of Significant Accounting Policies (Cont'd)****2-4-24 Financial Instruments (Cont'd)****Impairment Of Financial Assets Value (Cont'd)**

The impairment in the credit losses value guide may include indicators showing that debtors or group of debtors are facing material financial problems, or failure, or delay in profits or principal payment, or liquidation problem, or any other financial restructuring, and as the observable information are showing a measurable impairment in the expected future cash flows, like, delays variables, or economic conditions related to payment failure. The trading debtors are audited in kind, depending on each situation, to detect if there is any reason for disposal.

The company measures the expected credit losses through considering payment failure risks during the contractual period, and includes, during measurement, the future information.

Disposing of the financial asset from the books

The institution is to dispose of the financial assets from the books, only when:

- The contractual rights of the financial asset cash flows are over, or
- The institution transfers the financial asset.

The institution must dispose of the financial assets from the books (or part of the financial liability) from the balance sheet, when only it is reconciled – meaning that, the liability is paid to the contractual exact time, or canceled, or expired.

Contractual Obligations

It consists of contracting with subcontractors to carry out the work and the outstanding liabilities of subcontractors have been charged according to the company's approved completion level.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**30- Financial Instruments And Their Risk Management****Risk Management**

The Company is exposed to the following risks arising from the use of financial instruments:

- a) Interest rate risk.
- b) Foreign exchange rate risk
- c) Credit risk
- d) Capital management risk.
- e) Liquidity risk.

This note provides information on the extent of exposure of the Company to each of the above risks, the Company's objectives, policy and operations in terms of measuring and managing these risks as well as how the Company manages its capital.

The Board of Directors of the Company is fully responsible for developing a framework for managing and overseeing the risks to which the Company is exposed. The company's senior management is responsible for developing and tracking risk management policies and reporting to the parent company on a regular basis.

The Company's current financial risk management framework is a combination of officially documented risk management policies in specific areas and undocumented risk management policies used in other areas.

a) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's obligations with floating interest rates.

Interest on financial instruments having floating rates is re-priced at intervals of less than one year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates with all other variables held constant, of the Company's profit before tax:

	31 March 2026		31 December 2025	
	Change in rate	Effect on profit before tax EGP	Change in rate	Effect on profit before tax EGP
Financial liability	+1%	(16,540,078)	+1%	(16,543,922)
	-1%	16,540,078	-1%	16,543,922

b) Exposure to foreign currency risk

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material.

	31 March 2026		31 December 2025	
	Change in rate	Effect on profit before tax EGP	Change in rate	Effect on profit before tax EGP
USD	+10%	2,514,743	+10%	6,162,801
	-10%	(2,514,743)	-10%	(6,162,801)

c) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation, resulting in financial losses beard by the other party, The Company is exposed to credit risk from its accounts receivable, notes receivable, prepaid expenses, other debtors, other debit balances, due from related parties as well as from its financial activities, including deposits with banks and financial institutions.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**30- Financial Instruments and Their Risk Management (Cont'd)****d) Capital Management**

The main purpose of capital management is to ensure that the company maintains a proper percentage of the capital to support its business and to achieve the maximum increase for the share holders. The company manages the capital structure and adjusts it in consideration to the changes in the business environment.

There were no changes in the company goals, policies and operations for the three months ended 31 March 2026 and the year ended 31 December 2025. The capital consists of capital shares, treasury shares, reserves and retained earnings and as of 31 March 2026 amounted to EGP 1,287,513,893 (as of 31 December 2025 amounted to EGP 1,216,904,199).

e) Liquidity Risk

The management of the Company, with the support of the parent company monitors cash flows, financing requirements and liquidity of the company. The Company's objective is to maintain a balance between continuity of funding and by obtaining loans from banks. The company manages liquidity risks by maintaining adequate reserves and by obtaining loans facilities by continuously following up on anticipated and actual cash flows and reconciling accrual of assets with financial liabilities.

The company has sufficient cash to meet projected operating expenses and includes financial liability expenses.

The table below summarizes the maturity dates of the Company's financial liabilities based on undiscounted contractual payments:

31- Main sources of uncertain estimates

The Company makes future estimates and assumptions, the results of accounting estimates, as defined, are rarely equal to actual results, estimates and assumptions with significant risks that could cause a material adjustment to the carrying amounts of assets and liabilities during the next financial period are indicated below:

A. Estimate the net achievable value (net sales value) of real estate for development for sale

Real estate development is measured at cost or net achievable value (net selling value), whichever is lower.

The net achievable value (net selling value) of the finished property is determined by reference to market conditions and rates at the date of the financial statements and determined by the company based on its similar transactions.

Net achievable value (net selling value) of the unfinished property is determined by reference to market prices at the date of the financial statements of a similar finished property minus the estimated cost to complete the construction.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS OF 31 MARCH 2026**31- Main sources of uncertain estimates (Cont'd)****B. Useful life of machinery and equipment**

The company's management determines the expected useful life of properties and equipment to calculate depreciation and this estimate is calculated after considering the expected duration of the use of the asset and the nature of the deterioration and commercial obsolescence. The management reviews on an annual basis the residual value and useful life and adjusts the future allocation of depreciation when the management believes that useful lives differ from previous estimates.

C. Income tax

The company is subject to corporate tax, a provision for income tax is estimated using an expert opinion, any discrepancies between estimated and actual tax are reflected on provision for income tax and deferred tax for these periods.

32- Capital Commitments

	Non-recall capital
	EGP
Mashareq For Real Estate Investments Company *	82,080,000
USG General Contracting Company (S.A.E) (Note 5)	5,250,000
	87,330,000

* The company's share represents Gamma for Urban Development Company (Subsidiary company) In increasing of non-recall capital of Mashareq for Real Estate Investments Company.

33- Legal Position

The Company's legal position comprises litigation cases filed by certain parties dealing with the Company, for which provisions have been recognized in respect of some cases. These cases are still under consideration before the competent courts at all levels of litigation, and no final or conclusive judgments have been issued thereon to date. The legal position also includes certain labor disputes filed by former employees who have left the Company's service, which are still being litigated before the competent judicial authorities.

34- Significant Events

-On Thursday, February 12, 2026, The Monetary Policy Committee of the Central Bank of Egypt decided at its meeting to reduce the overnight deposit and lending rates and the Central Bank's main operation rate by 100 basis points to 19% and 19.50%, respectively. It also decided to reduce the credit and discount rate by 100 basis points to 19.50%. This decision reflects the Committee's assessment of the latest inflation developments and expectations since its previous meeting.

-After the reporting date, geopolitical tensions escalated between United States and Iran, accompanied by military and political developments that may have implications for both the global and regional economy. These developments could potentially disrupt global supply chains, particularly through increased shipping, insurance, and transportation costs, in addition to possible fluctuations in energy and key commodity prices.

These developments may also exert pressure on foreign exchange markets, including potential volatility in the exchange rate of the US dollar against other currencies, including the Egyptian pound, which may affect import costs and the prices of inputs used in operations.

Management is closely monitoring these developments on an ongoing basis to assess any potential impact on the Company's operations and financial position. As of the date of authorization of these financial statements, management has not been able to reliably estimate the financial impact of these events on future financial statements.
