REPORT ON REVIEW OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

To the members of the board of directors of U Consumer Finance “(S.A.E)”

Introduction

We have reviewed the accompanying consolidated financial position of **U Consumer Finance (S.A.E)** as of 31 March 2026 and the related consolidated statements of profit or loss, consolidated comprehensive income, consolidated changes in equity and consolidated cash flows for the three months ended on that date, and summary of the main accounting policies and other explanatory notes, Management is responsible for the preparation and presentation of these consolidated financial statements in accordance with the Egyptian accounting standards, our responsibility is to express a conclusion on these consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with the Egyptian Standard on review engagement no, (2410) "Review of interim financial information performed by the independent Auditor of the entity", A review of financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures, A review is substantially less in scope than an audit conducted in accordance with Egyptian standards on auditing, Consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit, Consequently; we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that accompanying interim consolidated financial statements are not prepared, in all material respects for the financial position of the company as of 31 March 2026, and its consolidated financial performance and cash flows for the three months ended in that date in accordance with Egyptian accounting standards.

Cairo: 13 May 2026

U Consumer Finance Company

(Egyptian Joint Stock Company)

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

1- Company's background

1-1 Legal status

ValU Consumer Finance Company (ValU for Instalment Services Company, previously) "Egyptian joint stock" has been established in accordance with the provisions of the Law of Joint Stock Companies, Partnerships Limited by Shares, and Limited Liability Companies, promulgated by Law No. 159 of 1981, and it's implementing regulations with ratification records report No. 1268 of 2017. The company was registered in the commercial registry in Cairo office with No. 108873 dated August 20, 2017.

On October 25, 2020, the company's situation was reconciled by leaving the scope of provision of law No. 159 of 1981 and comply under law No. 18 of 2020 so that the name of the company changes into ValU Consumer Finance to engage in the activity of consumer finance provision law No. 18 of 2020 and the decisions of the boards of financial regulatory authority issued instead of ValU for Instalment Services.

According to the Extraordinary General Assembly Meeting held on 19 March 2023, the name of the company was changed to (U Consumer Finance) "Egyptian Joint Stock" and was noted in the Commercial Register on 30 May 2023.

1-2 Purpose of the company

The purpose of the company is to practice consumer finance business in accordance with the provisions of Law No. 18 of 2020 and the decisions in effect, provided that the necessary licenses are issued to practice this activity.

The company may have an interest or participate in any way with companies and others that carry out business like its business, or that may help it achieve its objectives in the previous bodies, or buy it or attach it to them, in accordance with the provisions of the law and its executive regulations.

1-3 Company duration

Duration of company is 25 years from the date of registration in the commercial register.

1-4 The company is listed on the official list of the Egyptian Exchange.

1-5 Company location

The company's registered office is located in Smart Village building No. B129, phase 3, KM 28 Cairo Alexandria Desert Road, 6 October, Egypt.

In accordance with the decision of the Extraordinary General Assembly held on May 21, 2023, the company's headquarters was modified to become Unit No. (406&407&408&409- (VW), first floor above ground, located in the commercial center (Arkan 2) at the entrance to Zayed 2 - Sheikh Zayed City - Giza Government.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

1-6 Basis of Consolidation

- Control

An investor controls an investee when, and only when, the investor has:

1. Power over the investee.
2. Exposure, or rights, to variable returns from its involvement with the investee; and.
3. The ability to use its power over the investee to affect the amount of the investor's returns.

- Ongoing Assessment

The investor shall reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

- Loss of Control

When the parent loses control of a subsidiary, it shall:

1. Derecognize the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost.
2. Derecognize the carrying amount of any non-controlling interests in the former subsidiary (including any components of other comprehensive income attributable to them).
3. Derecognize any cumulative translation differences recognized in equity.
4. Recognize the fair value of the consideration received, if any, from the transaction, event, or circumstance that resulted in the loss of control.
5. Recognize any retained investment in the former subsidiary at its fair value at the date control is lost;
6. Reclassify to profit or loss, or transfer directly to retained earnings, the amounts recognized in other comprehensive income that relate to the subsidiary.
7. Recognize any resulting difference as a gain or loss attributable to the parent.

When the parent loses control of a subsidiary, it must account for all amounts previously recognized in other comprehensive income relating to that subsidiary on the same basis as would be required if the parent had directly disposed of the related assets or liabilities. Thus, when reclassifying the previously recognized gain or loss from other comprehensive income to profit or loss, the parent shall reclassify the gain or loss from equity to profit or loss (as a reclassification adjustment) at the date it loses control. If a previously recognized revaluation surplus had been transferred directly to retained earnings upon disposal of the asset, the parent shall transfer the revaluation surplus directly to retained earnings upon loss of control.

- Non-Controlling Interests

The parent shall attribute profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in a deficit balance in the non-controlling interests.

- Uniform Accounting Policies

If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments shall be made to that member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

- Subsidiaries

Those Companies controlled by the holding company. Control is achieved when the holding company has the ability to control, directly or indirectly, the financial and operating policies of the subsidiaries to obtain benefits from their activities. The consolidated financial statements include the financial statements of the subsidiaries from the date of control until the date that control ceases. The subsidiaries are represented by the following:

Name Of the Company	Nationality	Nature Of the Control	Contribution rate as of March 31, 2026
PAY-Nas BV	Holand	Direct	99.99 %
valu specialized financing	Holand	Direct	100%

- Elimination of Intercompany Transactions

Inter-grop balances, transactions, income, expenses, and dividends arising from intragroup activities are fully eliminated during consolidation. Any gains or losses resulting from intragroup transactions that are recognized in the carrying amount of assets (such as fixed assets or inventory) are also eliminated in full. Additionally, unrealized profits and losses from transactions between entities within the Group are eliminated to avoid double counting and to ensure accurate presentation of consolidated results.

- Consolidated Income Statement

The consolidated income statement reflects the aggregate results of operations of the parent company and its subsidiaries, after eliminating all intragroup income and expense transactions. This includes the full elimination of unrealized profits embedded in inventory balances arising from intragroup transactions as of the reporting date, to ensure that only external revenues and costs are reported in the consolidated figures.

- Business Combinations

The acquisition method i applied in business combinations, which involves:

1. Identification of the acquirer.
2. Determination of the acquisition date.
3. Recognition and measurement of the identifiable assets acquired, liabilities assumed, and any contingent liabilities, as well as any non-controlling interest (NCI) in the acquiree.
4. Recognition and measurement of goodwill – or a bargain purchase gain.

All identifiable assets and liabilities acquired are measured at their fair value as of the acquisition date. For each business combination, the acquirer shall measure any existing NCI either at:

A-Fair value

B- The proportionate share of the acquiree's identifiable net assets.

Goodwill

Goodwill is recognized as of the acquisition date and is measured as:

(A) Total of:

- (1) In accordance with Egyptian Accounting Standard (EAS) No. 29 – Business Combinations, the acquirer recognizes goodwill on the acquisition date.
- (2) The amount of any non-controlling interest in the acquired entity measured accordance with EAS 29– Business Combinations.
- (3) The fair value of any previously held equity interest in the acquiree, if the business combination is achieved in stages.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

(B) The net fair value of the identifiable assets acquired and liabilities (including contingent liabilities) assumed at the acquisition date, also in accordance with EAS 29.

- Consolidation Procedures

The consolidated financial statements of U Consumer Finance (formerly ValU Consumer Finance, an Egyptian joint stock company) are prepared by combining its the financial statements with that of its subsidiaries (Note 1), aggregating like items of assets, liabilities, equity, income, and expenses to present consolidated financial statements treating the Group as a single economic entity. The consolidation process involves the following steps:

- Eliminate the carrying amount of the parent company's investment in each subsidiary against its share of equity in those subsidiaries. Any excess of the investment cost over the Group's share of net assets is recorded as goodwill in the consolidated statement of financial position. Goodwill is subject to annual impairment testing or more frequently if indicators of impairment exist. Any impairment loss is recognized in the consolidated income statement.
- Non-controlling interests (NCI) in the net assets of subsidiaries are disclosed separately from the equity attributable to the shareholders of the parent. NCI includes:
 1. The initial amount recognized at the acquisition date.
 2. The NCI's share of subsequent changes in the subsidiary's equity since acquisition.
- All intra-group balances and transactions—including intercompany sales, expenses, and dividends—are eliminated in full during consolidation. Unrealized gains or losses arising from intra-group transactions that affect asset values (e.g., inventory or fixed assets) are also eliminated.
- Consolidated financial statements are prepared using uniform accounting policies for similar transactions and events.
- The results (revenues and expenses) of subsidiaries are included in the consolidated income statement from the acquisition date until the date control ceases.
- The financial position of subsidiaries whose functional currency is neither the functional currency of the holding company nor the currency of an inflationary economy are translated into the presentation currency of the holding company's financial statements for inclusion in the holding company's consolidated statements using the following procedures:
 - (a) Translating assets and liabilities for each balance sheet presented (including comparative figures) at the closing rate as of the balance sheet date.
 - (b) Translating revenue and expense items for each income statement presented (including comparative figures) at the exchange rates as of the dates of the transactions.
 - (c) Recognizing all exchange differences as a separate component of consolidated equity up to the date of disposal of the net investment.
- Accumulated exchange differences arising from translation that relate to minority/non-controlling interests are recognized as part of minority/non-controlling interests in the consolidated balance sheet up to the date of disposal of the net investment. When the holding company disposes of its investment in subsidiaries, the accumulated amount of exchange rate translation differences that were deferred as a separate component of consolidated equity and related to translating the financial statements of subsidiaries from their currency to the currency of the parent company for inclusion in the holding company's consolidated financial statements is recognized as a gain or loss simultaneously with the recognition of the gain or loss resulting from the disposal of the investment.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

2- Basis of preparation of Financial Statements

2-1 Statement of compliance

- These financial statements have been prepared in accordance with the Egyptian Accounting Standards and relevant Egyptian laws and regulations.

2-2 Functional and presentation currency

These financial statements are presented in Egyptian Pounds (EGP), which is the Company's functional currency and all the financial data presented are in Egyptian Pounds (EGP).

2-3 Use of estimates and judgments

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

The change in accounting estimates is recognized in the period where the estimate is changed whether the change affects only that period, or in the period of change and the future periods if the change affects them both.

2-3-1 Fair value measurement

- The fair value of financial instruments is determined based on the market value of the financial instrument or similar financial instruments at the date of the financial statements without deducting any estimated future selling costs.
- In the absence of an active market to determine the fair value of financial instruments, the fair value is estimated using various valuation techniques, taking into consideration the prices of the transactions occurred recently, and guided by the current fair value of other similar tools substantially - discounted cash flow method - or any other evaluation method to get resulting values that can rely on.
- When using the discounted cash flow method to evaluate, the future cash flows are estimated based on the best estimates of management. And the discount rate used is determined in the light of the prevailing market price at the date of the financial statements that are similar in nature and conditions.

26- Gain from Securitization and Discounting and Offloading

Securitization Surplus

5th Issuance (1st Issuance\ 5th Program)

- On 1 June 2023, the Company signed a securitization portfolio transfer contract to IFG Hermes Securitization, whereby the financial rights related to certain consumer finance contracts were transferred to EFG Hermes Securitization Company (the assignee) with a total value of EGP 1 743 443 419 and its current value of EGP 1 506 863 111.
- The assigned securitization portfolio includes 156 776 consumer finance contracts, generating cash flows represented in the collection of amounts due from debtors during the period starting on August 8, 2022, and ending on July 30, 2023.
- They are short-term nominal bonds in exchange for financial rights and post-paid receivables (securitization bonds) negotiable, non-convertible into shares and subject to accelerated call-in starting from the sixth month of issue (fourth coupon) for a period of 36 months with a total value of 1 423 000 000 Egyptian pounds in two tranches.(A) with an amount of 946 295 000 Egyptian pounds and the second tranche (B) with an amount of 476 705 000 Egyptian pounds only with a nominal value of (one hundred pounds) per bond and the bonds are depreciated in light of the actual proceeds of the portfolio after 3 months starting from the day following the closing date of the subscription door and then monthly after the first coupon with a fixed annual return of 19.25% for banks and the first coupon is disbursed after 3 months and then monthly starting from the day following the closing date of the subscription. EFG Hermes Securitization Company has privately offered securitization bonds based on the approval of the Financial Regulatory Authority (FRA) to offer the bonds, and the subscription in the bonds was fully covered through a private placement that closed on June 18, 2023, and the profits realized from the transfer of the securitization portfolio amounted to EGP 74 509 002.

14th Issuance (4rd Issuance\ 6th Program)

- On February 5, 2025, the company signed a securitization portfolio transfer contract to EFG Securitization Company, pursuant to which the financial rights related to some consumer finance contracts were transferred to EFG Securitization Company (the transferee), with a total value of EGP 554 588 032 and a current value of EGP 511 942 701.
- The transferred securitization portfolio includes 40 639 consumer finance contracts, generating cash flows represented by the collection of amounts due from debtors during the period starting on January 1, 2025, and ending on January 31, 2026.
 - They are short-term nominal bonds in exchange for financial rights and deferred payment receivables (securitization bonds) that are tradable, non-convertible into shares, and subject to accelerated call starting from the third month of issuance (fourth coupon) for a period of 12 months, with a value of 463 300 000 Egyptian pounds in two tranches.
 - The tranche bonds are short-term nominal securitization bonds in exchange for financial rights and deferred receivables, tradable and non-convertible into shares, and non-callable early for a period of (6) months starting from the day following the closing date of the subscription, with a total value of EGP 463 300 000 (only four hundred and sixty-three million and three hundred thousand Egyptian pounds), with a nominal value of EGP 100 (one hundred Egyptian pounds) per bond. Bond amortization begins three months after the closing date of the subscription based on the actual collections of the portfolio, starting from the day following the closing date for the first installment, and then monthly after the first installment, with a fixed annual return of (24%)

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

calculated from the day following the closing date of the subscription. The first coupon will be paid after (3) months from the closing date, and then monthly after the first coupon.

- EFG Securitization Company has made a private offering of securitization bonds based on the approval of the Financial Regulatory Authority to offer the bonds, and the subscription to the bonds was fully covered through a private offering that closed on February 5, 2025, and the profits achieved from the transfer of the securitization portfolio amounted to 65 841 098 Egyptian pounds.
- An account is opened with the custodian to address the shortage and deficit in cash flows, and this account is referred to as the "Reserve Account" to deposit an amount of (11 582 500) EGP (eleven million, five hundred eighty-two thousand, five hundreds) and is financed by deducting from the proceeds account from the cash flows generated in the first month of the issuance, provided that it remains representing (2.5)% of the outstanding balance of the bonds ("Reserve Account Balance"). When the amounts in the reserve account exceed the amounts representing the balance of the reserve account (as defined in this clause), the surplus shall be transferred to the proceeds account with the custodian every month in addition to the investment return on the funds achieved from the cumulative balance of the reserve account. - In the event of a deficit in the proceeds account to pay all expenses and dues of bondholders from interest and payment of amortization of the principal of the bonds, this deficit shall be financed through the reserve account, provided that the amounts transferred from the reserve account to pay this deficit shall be returned to it again from the proceeds account from the proceeds deposited in the following month, and the transfer of the deficit amounts from the reserve account to the proceeds account shall be repeated whenever there is a deficit and these amounts shall be returned to the reserve account.

15th Issuance (5rd Issuance\ 6th Program)

On May 4, 2025, the company signed a securitization portfolio transfer contract to EFG Securitization Company, pursuant to which the financial rights related to some consumer finance contracts were transferred to EFG Securitization Company (the transferee), with a total value of EGP 1 232 087 944 and a current value of EGP 1 142 1463 356.

- The transferred securitization portfolio includes 139 531 consumer finance contracts, generating cash flows represented by the collection of amounts due from debtors during the period starting on June 1, 2025 and ending on March 31, 2026.
- They are short-term nominal bonds in exchange for financial rights and deferred payment receivables (securitization bonds) that are tradable, non-convertible into shares, and subject to accelerated call starting from the third month of issuance (fourth coupon) for a period of 10 months, with a value of 1 036 000 000 Egyptian pounds in two tranches.
- The tranche bonds are short-term nominal securitization bonds in exchange for financial rights and deferred receivables, tradable and non-convertible into shares, and non-callable early for a period of (6) months starting from the day following the closing date of the subscription, with a total value of EGP 1 036 000 000 (Only one billion and thirty-six million Egyptian pounds), with a nominal value of EGP 100 (one hundred Egyptian pounds) per bond. Bond amortization begins three months after the closing date of the subscription based on the actual collections of the portfolio, starting from the day following the closing date for the first installment, and then monthly after the first installment, with a fixed annual return of (22.50%) calculated from the day following the closing date of the subscription. The first coupon will be paid after (3) months from the closing date, and then monthly after the first coupon.
- EFG Securitization Company has made a private offering of securitization bonds based on the approval of the Financial Regulatory Authority to offer the bonds, and the subscription to the bonds was fully covered through a private offering that closed on May 5, 2025, and the profits

17th Issuance (1st Issuance\ 7th Program)

- On July 15, 2025, the company signed a securitization portfolio transfer agreement with EFG Securitization Company, whereby the financial rights related to certain consumer finance contracts were transferred to EFG Securitization Company (the transferee). The total value of these contracts was EGP 554,435,918, with a current value of EGP 510,036,855.

The transferred securitization portfolio comprises 60,853 consumer finance contracts, generating cash flows from the collection of outstanding amounts owed by debtors during the period from August 1, 2025, to July 30, 2026.

These are short-term, nominal bonds (securitizable bonds) representing financial rights and future receivables. They are tradable, non-convertible to shares, and callable early starting from the third month after issuance (fourth coupon), with a 12-month maturity and a value of EGP 460,650,000 in a single tranche.

The tranche bonds are short-term nominal securitization bonds against financial rights and future receivables. They are tradable, non-convertible to shares, and non-callable for a period of (6) months starting from the day following the closing date of the subscription period, with a total value of (460,650,000) EGP (eight hundred and fifty-eight million and nine hundred thousand Egyptian pounds only), with a nominal value of 100 EGP (one hundred pounds) per bond. Bond redemption begins after three months based on the actual proceeds of the portfolio, starting from the day following the closing date of the subscription period for the first installment, then (monthly) after the (first) installment. They have a fixed annual return of (22.50%) calculated from the day following the closing date of the subscription period. The first coupon is paid after (3) months from the closing date of the subscription period, and then (monthly) after the first coupon.

The bonds have a fixed annual return of (22.50%) calculated from the day following the closing date of the subscription period. EFG Securitization Company conducted a private placement of securitization bonds, subject to approval from the Financial Regulatory Authority. The bonds were fully subscribed through a private placement that closed on July 15, 2025. The profits realized from the transfer of the securitization portfolio amounted to EGP 107,390,850.

An account is opened with the custodian to cover any cash flow shortfalls. This account, referred to as the "Reserve Account," is to be credited with EGP 11,516,250 (eleven million, five hundred and sixteen thousand, two hundred and fifty Egyptian pounds only). It is funded by debiting the proceeds account from the cash flows generated in the first month of issuance, and it will continue to represent 2.5% of the outstanding bond balance ("Reserve Account Balance"). When the balance in the reserve account exceeds the reserve account balance (as defined in this

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

section), the surplus is transferred to the custodian's proceeds account each month, in addition to the investment returns generated from the cumulative reserve account balance.

- If there is a deficit in the proceeds account to cover all expenses and bondholders' entitlements, including interest and principal repayments, this deficit is financed from the reserve account.

The amounts transferred from the reserve account to cover this deficit are then returned to the proceeds account from the following month's deposits. This process of transferring deficit amounts from the reserve account to the proceeds account is repeated whenever a deficit arises, and these amounts are subsequently returned to the reserve account.

18th Issuance (2nd Issuance\ 5th Program)

- On September 15, 2025, the company signed a securitization portfolio transfer agreement with EFG Securitization Company, whereby the financial rights related to certain consumer finance contracts were transferred to EFG Securitization Company (the transferee). The total value of these contracts was EGP 1,381,054,985, with a current value of EGP 1,871,210,915.

The transferred securitization portfolio comprises 117,244 consumer finance contracts, generating cash flows from the collection of outstanding amounts owed by debtors during the period from October 1, 2025, to March 30, 2027.

These are short-term, nominal bonds (securitize bonds) representing financial rights and future receivables. They are tradable, non-convertible to shares, and callable early starting from the third month after issuance (fourth coupon), with a maturity of 18 months and a total value of EGP 1,095,900,000, issued in two tranches.

- Tier 1 (A) Bonds: Short-term nominal securitization bonds against financial rights and future receivables. They are tradable, non-convertible to shares, and non-callable for a period of (12) months, starting from the day following the closing date of the subscription period, with a total value of (767,130,000) EGP (seven hundred and sixty-seven million, one hundred and thirty thousand Egyptian pounds only), with a nominal value of 100 EGP (one hundred pounds) per bond. Bond redemption begins after three months, based on the actual proceeds of the portfolio, starting from the day following the closing date of the subscription period for the first installment, and then (monthly) after the (first) installment. They have a fixed annual return of (22.20%), calculated from the day following the closing date of the subscription period. The first coupon is paid after (3) months from the closing date of the subscription period, and then (monthly) after the first coupon.

The first coupon is paid. - Second tranche (B) bonds are short-term nominal securitization bonds against financial rights and future receivables. They are tradable, non-convertible to shares, and callable early starting from month (7) of issuance. The coupon is (5) for a period of (18) months starting from the day following the closing date of the subscription period, with a total value of EGP (328,770,000) (three hundred and twenty-eight million, seven hundred and seventy thousand Egyptian pounds only), with a nominal value of EGP 100 (one hundred pounds) per bond. Bond redemption begins after six months based on the actual proceeds of the portfolio, after the full redemption of the first tranche (A). Redemption is calculated starting from the day following the closing date of the subscription period for the first installment, and then (monthly) thereafter, with a fixed annual return of (21.60%).

It is calculated from the day following the closing date of the subscription period, and the first coupon is paid three (3) months after the closing date of the subscription period and then paid monthly thereafter. EFG Securitization Company conducted a private placement of securitization bonds based on the approval of the Financial Regulatory Authority. The bonds were fully subscribed through a private placement that closed on September 15, 2025. The profits realized from the transfer of the securitization portfolio amounted to EGP 220,754,118. An account shall be opened with the custodian to cover any shortfall in cash flows. This account, referred to as the

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

"Reserve Account," shall be initially deposited with EGP 27,397,500 (twenty-one million, four hundred and seventy-two thousand, five hundred Egyptian pounds only). It shall be funded by debiting the proceeds account from the cash flows generated in the first month of issuance, provided that it remains at 2.5% of the outstanding bond balance ("Reserve Account Balance"). When the outstanding amounts in the Reserve Account exceed the amounts representing the Reserve Account balance (as defined in this clause), the surplus shall be transferred to the proceeds account with the custodian each month, in addition to the investment returns generated from the cumulative reserve account balance. - In the event of a deficit in the proceeds account to pay all expenses and bondholders' entitlements of interest and principal repayment, this deficit shall be financed through the reserve account, provided that the amounts transferred from the reserve account to pay this deficit shall be returned to it again from the proceeds account from the deposited receipts in the following month, and the transfer of deficit amounts from the reserve account to the proceeds account shall be repeated whenever a deficit is found and these amounts shall be returned to the reserve account.

19th Issuance (3rd Issuance\ 5th Program)

- On October 28, 2025, the company signed a securitization portfolio transfer agreement with EFG Securitization Company, whereby the financial rights related to certain consumer finance contracts were transferred to EFG Securitization Company (the transferee). The total value of these contracts was EGP 835,297,395, with a current value of EGP 735,000,000.

The transferred securitization portfolio comprises 75,291 consumer finance contracts, generating cash flows from the collection of outstanding amounts owed by debtors during the period from December 1, 2025, to April 30, 2027.

These are short-term, nominal bonds (securitize bonds) representing financial rights and future receivables. They are tradable, non-convertible shares, and callable early starting from the third month after issuance (fourth coupon), with a maturity of 17 months and a total value of EGP 735,000,000, issued in two tranches.

- Tier 1 (A) Bonds: Short-term nominal securitization bonds against financial rights and future receivables. They are tradable, non-convertible to shares, and non-callable for a period of (12) months, starting from the day following the closing date of the subscription period, with a total value of (621,075,000) EGP (seven hundred and sixty-seven million, one hundred and thirty thousand Egyptian pounds only), with a nominal value of 100 EGP (one hundred pounds) per bond. Bond redemption begins after three months, based on the actual proceeds of the portfolio, starting from the day following the closing date of the subscription period for the first installment, and then (monthly) after the (first) installment. They have a fixed annual return of (21.80%), calculated from the day following the closing date of the subscription period. The first coupon is paid after (3) months from the closing date of the subscription period, and then (monthly) after the first coupon.

The first coupon is paid. - Bonds are short-term nominal securitization bonds against financial rights and future receivables. They are tradable, non-convertible to shares, and non-callable, with a term of (17) months commencing from the day following the closing date of the subscription period. The total value is EGP 113,925,000 (one hundred and thirteen million, nine hundred and twenty-five thousand Egyptian pounds only), with a nominal value of EGP 100 (one hundred pounds) per bond. They carry a fixed annual return of (21.50%) calculated from the day following the closing date of the subscription period. The first coupon payment is made three (3) months after the closing date of the subscription period. Tranche 2(B) bonds are repaid/redeemed in monthly installments based on the actual proceeds of the securitization portfolio, starting from the 13th month of the issuance period, provided that Tranche 1(A) is fully redeemed. Redemption is permitted during the term of Tranche 1(A) only if there are proceeds resulting from early

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

repayment by debtors. The second tranche (B) will be fully redeemed only after the first tranche (A) has been fully redeemed. EFG Securitization Company conducted a private placement of securitization bonds, subject to the approval of the Financial Regulatory Authority. The bonds were fully subscribed through a private placement that closed on October 28, 2025. The profits realized from the transfer of the securitization portfolio amounted to EGP 121,933,514. An account will be opened with the custodian to cover any cash flow shortfalls. This account, referred to as the "Reserve Account," will be credited with EGP 18,375,000 (eighteen million three hundred and seventy-five thousand Egyptian pounds only). It will be funded by debiting the proceeds from the cash flows generated in the first month of issuance and will continue to represent 2.5% of the outstanding bond balance ("Reserve Account Balance"). When the balance in the reserve account exceeds the reserve account balance (as defined in this section), the surplus is transferred to the custodian's proceeds account each month, along with the return on investment of funds accrued from the reserve account's accumulated balance. - If there is a deficit in the proceeds account to cover all expenses and bondholders' entitlements, including interest and principal repayments, this deficit is financed from the reserve account. The amounts transferred from the reserve account to cover this deficit are then returned to the proceeds account from the following month's deposits. This process of transferring deficit amounts from the reserve account to the proceeds account is repeated whenever a deficit arises, and these amounts are subsequently returned to the reserve account.

20th Issuance (1st Issuance\ 8th Program)

- On December 4, 2025, the company signed a securitization portfolio transfer agreement with EFG Securitization Company, whereby the financial rights related to certain consumer finance contracts were transferred to EFG Securitization Company (the transferee). The total value of these contracts was EGP 1,381,884,385, with a current value of EGP 1,111,500,000. The transferred securitization portfolio comprises 131,357 consumer finance contracts, generating cash flows from the collection of outstanding amounts owed by debtors during the period from January 1, 2026, to June 30, 2027.

These are short-term, nominal bonds (securitize bonds) representing financial rights and future receivables. They are tradable, non-convertible to shares, and callable early starting from the third month after issuance (fourth coupon), with a maturity of 18 months and a total value of EGP 1,111,500,000, issued in two tranches.

- Tier 1 (A) Bonds: Short-term nominal securitization bonds against financial rights and future receivables. They are tradable, non-convertible to shares, and non-callable for a period of (12) months, starting from the day following the closing date of the subscription period, with a total value of (872,527,500) EGP (eight hundred and seventy-two million, five hundred and twenty-seven thousand, five hundred Egyptian pounds only), with a nominal value of 100 EGP (one hundred pounds) per bond. Bond redemption begins after three months, based on the actual proceeds of the portfolio, starting from the day following the closing date of the subscription period for the first installment, and then (monthly) after the (first) installment. They have a fixed annual return of (21.50%), calculated from the day following the closing date of the subscription period. The first coupon is paid after (3) months from the closing date of the subscription period, and then (monthly) after the first coupon.

The first coupon is paid. - Bonds are short-term nominal securitization bonds against financial rights and future receivables. They are tradable, non-convertible to shares, and non-callable, with a term of (18) months commencing from the day following the closing date of the subscription period. The total value is EGP 238,972,500 (Two hundred and thirty-eight million, nine hundred and seventy-two thousand and five hundred Egyptian pounds only), with a nominal value of EGP 100 (one hundred pounds) per bond. They carry a fixed annual return of (21.20%) calculated from

the day following the closing date of the subscription period. The first coupon payment is made three (3) months after the closing date of the subscription period. Tranche 2(B) bonds are repaid/redeemed in monthly installments based on the actual proceeds of the securitization portfolio, starting from the 13th month of the issuance period, provided that Tranche 1(A) is fully redeemed. Redemption is permitted during the term of Tranche 1(A) only if there are proceeds resulting from early repayment by debtors. The second tranche (B) will be fully redeemed only after the first tranche (A) has been fully redeemed. EFG Securitization Company conducted a private placement of securitization bonds, subject to the approval of the Financial Regulatory Authority. The bonds were fully subscribed through a private placement that closed on December 4, 2025. The profits realized from the transfer of the securitization portfolio amounted to EGP 186,202,353. An account will be opened with the custodian to cover any cash flow shortfalls. This account, referred to as the "Reserve Account," will be credited with EGP 27,787,500 (twenty-seven million seven hundred and eighty-seven thousand and five hundred Egyptian pounds only). It will be funded by debiting the proceeds account from the cash flows generated in the first month of issuance, and will continue to represent 2.5% of the outstanding bond balance ("Reserve Account Balance"). When the balance in the reserve account exceeds the reserve account balance (as defined in this section), the surplus is transferred to the custodian's proceeds account each month, along with the return on investment of funds accrued from the reserve account's accumulated balance. - If there is a deficit in the proceeds account to cover all expenses and bondholders' entitlements, including interest and principal repayments, this deficit is financed from the reserve account. The amounts transferred from the reserve account to cover this deficit are then returned to the proceeds account from the following month's deposits. This process of transferring deficit amounts from the reserve account to the proceeds account is repeated whenever a deficit arises, and these amounts are subsequently returned to the reserve account.

21th (2nd Issuance\ 8th Program)

On 30 March 2026, the Company entered into a securitization portfolio assignment agreement with EFG Securitization

, pursuant to which the financial rights related to certain consumer finance contracts were assigned to EFG Securitization (the assignee). The portfolio had a total gross value of EGP 443,298,012 and a present value of EGP 377,961,059.

The assigned securitization portfolio comprises 58,786 consumer finance contracts generating cash flows represented by the collection of amounts due from debtors during the period commencing on 1 April 2026 and ending on 30 September 2027.

The issuance consists of short-term registered securitization bonds backed by financial rights and deferred receivables, which are tradable, non-convertible into shares, and callable on an accelerated basis starting from the third month of issuance (the fourth coupon) for a period of 18 months, with a total value of EGP 338,900,000 divided into two tranches.

First Tranche (A):

Registered short-term securitization bonds backed by financial rights and deferred receivables, tradable, non-convertible into shares, and non-callable on an accelerated basis for a period of 12 months commencing on the day following the closing date of the subscription period, with an aggregate value of EGP 149,116,000 (Egyptian Pounds One Hundred Forty-Nine Million One Hundred Sixteen Thousand Only), at a nominal value of EGP 100 per bond. Amortization of the bonds shall commence after three months based on the actual collections of the portfolio, starting from the day following the subscription closing date for the first installment and monthly thereafter. The tranche bears a fixed annual return of 19.25%, calculated from the day

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

following the closing date of the subscription period. The first coupon shall be paid after three months from the subscription closing date and monthly thereafter.

Second Tranche (B):

Registered short-term securitization bonds backed by financial rights and deferred receivables, tradable, non-convertible into shares, and non-callable on an accelerated basis for a period of 18 months commencing on the day following the closing date of the subscription period, with an aggregate value of EGP 189,784,000 (Egyptian Pounds One Hundred Eighty-Nine Million Seven Hundred Eighty-Four Thousand Only), at a nominal value of EGP 100 per bond. The tranche bears a fixed annual return of 19.10%, calculated from the day following the closing date of the subscription period. The first coupon shall be paid after three months from the subscription closing date. Repayment/amortization of Tranche (B) bonds shall be made in monthly installments based on the actual collections from the securitization portfolio, starting from the thirteenth month of the issuance term, provided that Tranche (A) has been fully amortized. Tranche (B) may also be amortized during the term of Tranche (A) only to the extent that collections arise from early settlements by debtors, provided that Tranche (B) may not be fully amortized prior to the full amortization of Tranche (A).

EFG Securitization conducted a private placement of the securitization bonds pursuant to the approval of the Financial Regulatory Authority for the issuance. The subscription was fully covered through a private placement that closed on 30 March 2026. The profits realized from the assignment of the securitization portfolio amounted to EGP 121,968,915.

A reserve account shall be opened with the custodian to cover any shortfall or deficiency in cash flows (the "Reserve Account"), into which an amount of EGP 8,472,500 (Egyptian Pounds Eight Million Four Hundred Seventy-Two Thousand Five Hundred Only) shall be deposited. The account shall be funded through deductions from the proceeds account from the cash flows generated during the first month of the issuance, provided that the reserve balance remains equivalent to 2.5% of the outstanding bond balance ("Reserve Account Balance"). Any excess amount in the Reserve Account over the required Reserve Account Balance shall be transferred monthly to the proceeds account maintained with the custodian, together with any investment income generated from the cumulative balance of the Reserve Account.

In the event of a shortfall in the proceeds account to satisfy all expenses and bondholders' entitlements, including interest and principal repayments, such shortfall shall be funded through the Reserve Account. Amounts transferred from the Reserve Account to cover such shortfall shall subsequently be reimbursed to the Reserve Account from the proceeds account using collections deposited during the following month. Transfers from the Reserve Account to the proceeds account and subsequent reimbursements thereto shall continue whenever a shortfall arises.

Discounting of commercial papers, discounting of financial receivables and transfer of rights

On November 14, 2024, the company signed a protocol agreement with the Arab African International Bank for the discounting of commercial papers, financial receivables, and assignment of rights.

The discounting of financial receivables is to be carried out in two phases: the first phase pertains to discounting installment car sales contracts between the company and its clients, and the second phase pertains to discounting consumer finance contracts and the resulting receivables between the company and its clients. The portfolio of commercial papers and/or the receivables resulting from installment car sales contracts and/or the receivables resulting from consumer finance contracts, pertaining to the first and second phases, will be transferred to the Arab African International Bank for an amount not exceeding EGP 950,000,000 (nine hundred and fifty million Egyptian pounds only), which represents the present value of the portfolio after discounting according to the discount rate stipulated in this agreement. This transfer is to be

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

made without recourse against the company, and the bank has accepted this agreement. Therefore, both parties have acknowledged their legal capacity to act and enter into this contract. The second transfer – This includes discounting commercial papers, discounting financial receivables, and transferring rights to 14,513 consumer finance contracts. It generates cash flows by collecting outstanding amounts from debtors during the period from February 1, 2025, to January 31, 2026.

The total portfolio provided to the Arab African Bank is EGP 146,348,461, with a current value of EGP 134,569,699.

The Arab African Bank transferred EGP 126,390,273, based on the approval of the Financial Regulatory Authority for discounting commercial papers. An amount of EGP 7,679,556 was set aside as a 6% reserve of the portfolio's nominal value. This reserve is deposited and held in an intermediary account as a buffer against reversals, with authorization for discounting and a mandate from the collection agent to replenish the account in case of any shortfall. The profit realized from discounting commercial papers amounted to EGP 17,170,819.

Third Transfer

- This includes discounting commercial papers, discounting financial receivables, and transferring rights to 42,772 consumer finance contracts. This will generate cash flows by collecting outstanding amounts from debtors during the period from March 1, 2025, to February 1, 2026.

- The total portfolio provided to the Arab African Bank is EGP 464,669,549, with a current value of EGP 370,687,503.

- The Arab African Bank transferred EGP 384,258,468 based on the approval of the Financial Regulatory Authority for discounting commercial papers. An amount of EGP 520,211,333 was set aside as a 6% reserve of the portfolio's nominal value. This reserve is deposited and held in an intermediary account as a buffer against reversals, with authorization for discounting and a mandate from the collection agent to replenish the account in case of any shortfall. The profit realized from discounting commercial papers amounted to 462,899.97 Egyptian pounds.

Fourth Transfer

- This includes discounting commercial papers, discounting financial receivables, and transferring rights to 45,308 consumer finance contracts. These contracts will generate cash flows through the collection of outstanding amounts from debtors during the period from May 1, 2025, to April 1, 2026.

- The total portfolio provided to the Arab African Bank is EGP 250,773,007, with a current value of EGP 234,472,933.

- The Arab African Bank transferred EGP 216,171,890, based on the approval of the Financial Regulatory Authority for discounting commercial papers. An amount of EGP 15,046,380 was set aside as a 6% reserve of the portfolio's nominal value. This reserve is deposited and held in an intermediary account as a buffer against reversals, with authorization for deduction and a mandate from the collection agent to replenish the account in case of any shortfall. The profit realized from discounting commercial papers amounted to EGP 135,837.37.

Discounting

U Consumer Finance Company S.A.E. (the "Second Party") signed a "Postponed Check Discounting" agreement with Next Bank S.A.E. (the "First Party") on April 30, 2025. The company submitted a request to the bank to discount postponed checks drawn on its regular customers, both current and future, without recourse against the company, up to the amount agreed upon in this agreement. The company will present the checks for discounting after submitting a discount notice to the bank. Each discount notice submitted by the company will be reviewed by the bank, and the acceptance or rejection of the discount will be at the bank's sole discretion. The bank agrees to discount postponed checks drawn on the company's regular customers, accepted by the bank, and negotiable, with a total value not exceeding EGP 10,000,000,000 (ten billion Egyptian pounds only), at a discount rate for each check individually, determined based on each discount notice submitted by the company pursuant to this agreement.

Sixth Transfer

27- Contingent liabilities

Letter of guarantee

Letter of guarantee represent for some suppliers with an amount of EGP 2 358 200 for buy purchasing.

28- Financial risks:

As a result of its activities, the company is exposed to various financial risks, including market risks (including foreign exchange rate risks, fair value risks for interest rates, and price risks, credit risks, and liquidity risks).

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

This note presents the information related to the company's exposure to each of the above risks, as well as the company's objectives, policies, and methods for measuring and managing risk, as well as the company's management of capital.

The company's Board of Directors has overall responsibility for establishing and monitoring the company's overall risk management framework. It identifies and analyzes the risks facing the company to determine risk levels and appropriate controls and monitors those risks and the company's compliance with those responsibilities.

The company's management aims to establish a constructive and disciplined control environment, ensuring that all employees are aware of and understanding their roles and obligations.

28/1 Credit risk

The primary credit risk is the risk of non-collection of debts owed to the company from customers. The company mitigates this risk by carefully studying customers before contracting with them, as well as by following up with them after contracting and evaluating them to ensure their ability to repay. The company does not have a significant concentration of credit risk, as debts are primarily due from customers in the local market and are stated at their recoverable value. Cash is deposited with local banks with high credit ratings.

Risk Avoidance Policies

The company has several policies and controls in place to mitigate credit risk. One of these methods is obtaining collateral for funds provided. The company establishes guidelines for specific categories of acceptable collateral.

Non-Delinquent Financing Customers

The credit quality of the consumer finance customer portfolio that is neither delinquent nor impaired is assessed using the company's internal assessment.

28/2 Liquidity risk

The Company's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its obligations when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

28/3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates or interest rates, affect a company's income or the value of its holdings of financial instruments. The goal of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing returns.

Interest rate risk on cash flow

Interest rate risk is the risk that the fair value of future cash flows of financial instruments will fluctuate due to changes in market interest rates.

The company is exposed to interest rate risk due to its bank loans and advances at variable interest rates, which may expose the company to the risk that cash flow will be affected by changes in interest rates. Financial liabilities exposed to interest rate risk as of March 31, 2026, amounted to EGP 12.649 billion (compared to EGP 10.020 billion as of December 31, 2025).

**U Consumer Finance Company
(Egyptian Joint Stock Company)**

Notes to Consolidated financial statements for the period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

Foreign currencies risk

Foreign exchange risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates.

The table below shows the foreign exchange position shown in foreign currencies

	31/3/2026		31/12/2025	
	Assets	Liabilities	Net	Net
Dollar	144 138	--	144 138	269 453
Euro	--	--	--	4 242
GBP	--	--	--	3 112

Price risk

The Company does not have investments in registered securities and is therefore it is not exposed to the risk of changes in fair value due to price changes.

28/4 Capital risk

The Board of Directors' policy is to maintain strong capital to maintain investor, creditor, and market confidence, as well as to meet future business developments.

The Board of Directors monitors the return on capital, which the Company defines as net profit for the year divided by total shareholders' equity. The Board also monitors the level of dividend distributions to shareholders.

The Board of Directors seeks to balance the higher returns that can be achieved with higher levels of borrowing and the benefits and security provided by maintaining a sound capital position.

There were no changes to the Company's capital management strategy during the year. The Company is not subject to any externally imposed capital requirements.

29- Impairment reserve for consumer finance

Companies engaged in real estate finance, financial leasing, factoring, consumer finance, and financing of small, medium, and micro enterprises are obligated to establish a risk reserve for the effects of applying Egyptian Accounting Standard No. (47) Financial Instruments, equivalent to 1% of assets, from the net profits for the year after deducting tax for the fiscal year ending December 31, 2020. This reserve shall be included in shareholders' equity and shall not be used except after the Authority's approval.

The Chairman of the Financial Regulatory Authority issued Circular No. (3) of 2021 dated February 1, 2021, regarding the controls for implementing the Authority's Board of Directors' Decision No. 200 of 2020 regarding the formation of a reserve to address the risks of the effects of applying Egyptian Accounting Standard No. (47) Financial Instruments on some companies engaged in non-banking financial activities. The decision stipulates the formation of a risk reserve for the effects of applying Egyptian Accounting Standard No. (47) Financial Instruments, equivalent to 1% of risk-weighted assets, in accordance with the provisions of the decisions issued by the Authority's Board of Directors regarding financial solvency standards, provided that it is deducted. The value of the reserve, consisting of net profits for the year ending December 31, 2020, after withholding tax, shall be included in the shareholders' equity item as a separate item in the statement of financial position, and the effects of application shall be shown in the first quarter of 2021, noting that this reserve shall not be used except after obtaining prior approval from the Financial Regulatory Authority.

U Consumer Finance Company**(Egyptian Joint Stock Company)****Significant accounting policies applied statements for the Period ended March 31, 2026****(In the notes all amounts are shown in EGP unless otherwise stated)****30- Significant accounting policies applied**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

30-1 foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Company companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

30-2 Property, plant, and equipment**30-2-1 Recognition and measurement**

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The cost of certain items of property, plant and equipment. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

30-2-2 Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

30-2-3 Depreciation

Depreciation is calculated to write off the cost of items of property, plant, and equipment less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognized in profit or loss.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

Assets	Estimated useful life
- electrical appliances	5 years
- Computer equipment	5 years
- Office furniture& Fixtures&decoration	5-7 years
- Vehicles	5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

30-3 Intangible assets

Intangible assets are recorded at historical cost less accumulated amortization and any impairment losses; intangible assets are amortized using the straight-line method and are recognized in profit or loss over their estimated useful lives.

Assets	Estimated useful life
- computer program	5 years

30-4 Financial instruments

30-4-1 Recognition and initial measurement

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

30-4-2 Classification and subsequent measurement financial assets

On initial recognition, a financial asset is classified as measured at: amortized cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an instrument-by-instrument basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-4-3 Financial assets – Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- How the performance of the portfolio is evaluated and reported to the Company's management;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- The frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

30-4-4 Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- Contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- Prepayment and extension features; and
- Terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early

termination of the contract.

Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-4-5 Financial assets – Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

30-4-6 Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

30-4-7 Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company enters into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

30-4-8 Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts, and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

30-5 Impairment

30-5-1 non-derivative financial assets

Financial instruments and contract assets

The Company recognizes loss allowances for Expected Credit Loss (ECLs) on:

- Financial assets measured at amortized cost.
- Debt investments measured at FVOCI;
- contract assets.

The Company also recognizes loss allowances for ECLs on loans receivables.

The Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- Debt securities that are determined to have low credit risk at the reporting date; and
- Other debt securities and bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment, that includes forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due, unless it can be rebutted.

The Company considers a financial asset to be in default when:

- The debtor is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realizing security (if any is held); or
- The financial asset is more than 90 days past due unless it can be rebutted.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-5-2 Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

30-5-3 Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the debtor;
- A breach of contract such as a default or being more than 90 days past due;
- The restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- It is probable that the debtor will enter bankruptcy or other financial reorganization;
- or
- The disappearance of an active market for a security because of financial difficulties.

30-5-4 Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in OCI.

30-5-5 Write-off

Any client's financing is written off when the company is certain that the balance cannot be collected, provided that a provision for the full value of the balance to be written off is made prior to this. The company's board of directors alone has the authority to approve the writing off of any client balance based on a justified presentation from the relevant department. The writing off of a client's balance does not prevent the company from pursuing its legal efforts to recover its dues. This is in accordance with the solvency standards for companies operating in consumer finance (Decision No. 101 of 2020 issued by the Financial Regulatory Authority).

The company may write off debts according to the following conditions:

- 1) A decision is issued by the company's board of directors to write off the debts.
- 2) The company submits a report from its auditor stating that the following conditions are met:
 - The company must maintain regular accounts.
 - The debt must be related to consumer finance activities.
 - The corresponding amount must have been previously included in the company's accounts.
 - The company must have taken serious measures to recover the debt and have failed to collect it within 18 months of its due date.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-5-6 non-financial assets

- At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than, investment property, contract assets and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.
- For impairment testing, assets are Companied together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or Companies of CGUs that are expected to benefit from the synergies of the combination.
- The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.
- An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.
- Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.
- An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

30-6 Cash and cash equivalents

For the purpose of preparing the statement of cash flows, cash and cash equivalents includes the balances, whose maturity do not exceed three months from the date of acquisition and the balances included cash on hand, current accounts, time deposits with banks.

30-7 Provisions

Provisions are recognized when the Company has a legal or constructive current obligation as a result of a past event and it's probable that a flow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Provisions are reviewed at the financial position date and amended (when necessary) to represent the best current estimate.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-8 Legal reserve

The Company's statutes provides for deduction of a sum equal to 5% of the annual net profit for formation of the legal reserve. Such deduction will be ceased when the total reserve reaches an amount equal to half of the Company's issued capital and when the reserve falls below this limit, it shall be necessary to resume.

30-9 Share capital

30-9-1 Ordinary shares

Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity. Income tax relating to transaction costs of an equity transaction are accounted for in accordance with EAS 24 income tax.

30-10 Revenues

Step 1: Identify the contract(s) with the customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations that must be fulfilled under each contract.

Step 2: Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or provide a service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration that the company expects to be entitled to in exchange for transferring the promised goods or providing the services to the customer, excluding amounts collected on behalf of other parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract with more than one performance obligation, the company will allocate the transaction price to each performance obligation in an amount that identifies the amount of consideration the company expects to be entitled to in exchange for satisfying each performance obligation.

Step 5: Revenue is recognized when (or as) the entity satisfies a performance obligation.

- Revenue is recognized at a point in time or over time.

The Company satisfies an obligation and recognizes revenue over time if one of the following criteria is met:

- a) The Company's performance does not create an asset for which the Company has an enforceable right to payment for the performance completed to date.
 - b) The Company creates or enhances an asset controlled by the customer when the asset is created or enhanced.
 - c) The customer simultaneously receives and consumes the benefits provided by the Company's performance as soon as the Company performs.
- For performance obligations, if one of the above conditions is met, revenue is recognized over time, representing the time over which the performance obligation is satisfied.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

- When the Company satisfies a performance obligation by delivering promised services, a contract asset is created based on the amount of contract consideration received from the performance. When the amount of contract consideration received from the customer exceeds the revenue generated, this results in advance payments from the customer (a contract liability).
- Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue and costs can be measured reliably, where appropriate.
- In applying Egyptian Accounting Standard 48, management uses the following judgments:

Determining Transaction Prices:

- The company must determine the transaction price associated with its agreements with customers. When using this judgment, the company estimates the impact of any variable consideration in the contract due to discounts, penalties, the presence of any significant financing component, or any non-cash consideration in the contract.

Transfer of Control in Customer Contracts:

- If the company determines that performance obligations are satisfied at a point in time, revenue is recognized when control of the assets subject to the contract is transferred to the customer.

Satisfaction of Performance Obligations:

- The company must evaluate each of its contracts with customers to determine whether performance obligations are satisfied over time or at a point in time. In order to determine the appropriate method for recognizing revenue, the company has assessed that, based on the agreement with the customer, the company does not create an asset that has an alternative use for the company, and it generally has an enforceable right to payment for performance completed to date. In these circumstances, the company recognizes revenue over time. If this is not the case, revenue is recognized at a point in time for the sale of goods or the provision of services. Revenue is usually recognized at a point in time.

Other matters to consider:

- Variable consideration: If the promised consideration in a contract includes a variable amount, the company must estimate the amount of consideration to which it is entitled in exchange for transferring the promised goods or services to the customer. The company estimates the transaction price for contracts with variable consideration using the expected value or most likely amount method. The method is applied consistently throughout the contract and for similar types of contracts.

Significant financing component:

- The company adjusts the amount of promised consideration for the time value of money if the contract includes a significant financing component.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-11 Interests

30-11 -1 Effective Interest Rate

Interest income and expenses are recognized in profit or loss using the effective interest method. The effective interest rate is the exact rate that discounts the expected future cash flows to be paid over the expected life of the financial instrument to determine the present value of a financial asset or liability. When calculating the effective interest rate, the entity must estimate the cash flows, considering all contractual terms of the financial instrument, except for expected credit losses.

The calculation of the effective interest rate includes transaction costs and any fees or points paid or received that are part of the effective interest rate. Transaction costs refer to incremental costs directly attributable to the acquisition or issuance of a financial asset or liability.

30-11 -2 Amortized Cost and Carrying Amount

Amortized cost is the value at which a financial asset or liability is measured at initial recognition, minus the principal repayments, plus or minus the cumulative amortization (using the effective interest rate method) of any differences between the initial value and the value at maturity, and minus expected credit losses.

The carrying amount of a financial asset is its amortized cost before deducting the expected credit losses.

30-11 – 3 Calculation of Interest Income and Expenses

The effective interest rate for a financial asset or liability is determined at the initial recognition of the asset or liability. To calculate interest income and expenses, the effective interest rate is applied to the carrying amount of the asset or the amortized cost of the liability.

30-12 Fees and Commissions

Fees and commissions that form part of the effective interest rate of a financial asset or liability are included in the effective interest rate calculation.

Other fees and commissions are recognized as income when the related service is performed.

Contracts with customers that result in the recognition of financial instruments in the company's financial statements may partially fall under the scope of Egyptian Accounting Standard (EAS) 47: Financial Instruments and partially under EAS 48: Revenue from Contracts with Customers. In such cases, the company first applies EAS 47 to separate and measure the portion of the contract within its scope, then applies EAS 48 to the remainder.

Other Fee and Commission Expenses

These primarily include transaction and service-related fees and commissions, which are recognized as expenses upon receipt of the service.

30-13 Expenses

30-13-1 Borrowing costs

Borrowing costs are recognized as expenses in the income statement when incurred on an effective interest basis.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-13-2 Employees' pension

The Company contributes to the government social insurance system for the benefit of its personnel in accordance with the social insurance law. Under this law, the employees and the employers contribute into the system on a fixed percentage-of-salaries basis. The Company's liability is confined to the amount of its contribution. Contributions are charged to income statements using the accrual basis of accounting.

30-13-3 Income tax

Income tax on the income statement for the year comprises current and deferred tax. Income tax is recognized in the income statement except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the financial position date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the financial position liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the financial position date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

30-14 Earnings per share

The Company presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

30-15 Profit sharing to employees

The Company pays 10% of its cash dividends as profit sharing to its employees provided that it will not exceed total employees' annual salaries. Profit sharing is recognized as a dividend distribution through equity and as a liability when approved by the Company's shareholders.

30-16 Leases

At the beginning of the contract, the company evaluates whether the contract is a rental contract or includes a rental contract. The contract is a lease contract or includes a lease contract if the contract transfers the right to control the use of a specific asset for a period of time in exchange for a consideration. To assess whether a lease conveys the right to control the use of a specific asset, the Group uses the definition of a lease in AASB 49.

This policy applies to contracts concluded on or after January 1, 2020.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

30-16-1As a lessee

At commencement or on modification of a contract that contains a lease component, the company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the company uses its incremental borrowing rate as the discount rate.

The company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

fixed payments, including in-substance fixed payments;

variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

amounts expected to be payable under a residual value guarantee; and the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the company's estimate of the amount expected to be payable under a residual value guarantee, if the company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The company presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'loans and borrowings' in the statement of financial position.

Short-term leases and leases of low-value assets

The company has elected not to recognize right-of-use assets and lease liabilities for leases of low – value assets and short-term leases, including IT equipment. The company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

30-16-2 As a lessor

At inception or on modification of a contract that contains a lease component, the company allocates the consideration in the contract to each lease component on the basis of their relative stand- alone prices.

When the company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the company considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the company is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the company applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, then the company applies EAS 11 to allocate the consideration in the contract.

The company applies the derecognition and impairment requirements in EAS 47 to the net investment in the lease. The company further regularly reviews estimated unguaranteed residual values used in calculating the gross investment in the lease.

The company recognizes lease payments received under operating leases as income on a straight- line basis over the lease term as part of 'other revenue'.

30-17 Investments

Investments in Subsidiaries

These represent investments in entities over which the Company exercises control. Control is generally presumed when the Company, whether directly or indirectly through its subsidiaries, holds more than 50% of the voting rights of the investee, unless it is clearly demonstrated that such ownership does not result in control.

U Consumer Finance Company

(Egyptian Joint Stock Company)

Significant accounting policies applied statements for the Period ended March 31, 2026

(In the notes all amounts are shown in EGP unless otherwise stated)

Investments in subsidiaries are presented in the consolidated financial statements at cost, including acquisition-related costs. If there is an indication that the value of these investments has been impaired, the carrying amount is reduced to reflect the impairment loss, which is recognized in the consolidated statement of profit or loss for each investment individually. Impairment losses may be reversed if the reasons for the impairment are no longer present.

Investments in Associates

Investments in associates are those in which the Company has significant influence but does not have control or joint control. Significant influence is presumed to exist when the holding Company, directly or indirectly through its subsidiaries, holds 20% or more of the voting rights of the investee, unless it is clearly demonstrated that such ownership does not result in significant influence.

Investments in associates are accounted for in the consolidated financial statements using the equity method. Under this method, the investment is initially recognized at cost, including directly attributable acquisition costs. Subsequently, the carrying amount of the investment is adjusted to reflect the Group's share of the associate's profit or loss and other comprehensive income items up to the date when significant influence is lost or joint control ceases.

30-18 Comparative Figures

Comparative figures are reclassified whenever necessary to conform with changes in the presentation of the financial statements for the current period.

31- Goodwill

- The goodwill recognized in the balance sheet, amounting to 308 million EGP, represents the excess amount paid over the fair value of the net assets of "PAY-Nas BV", in accordance with Egyptian Accounting Standards (EAS). Goodwill is initially measured at cost and is subject to an annual impairment test in accordance with EAS 31. The impairment test is conducted at the company-wide level. ended 31 December 2024, was evaluated using the discounted cash flow (DCF) method, based on growth projections and the cost of capital to the consumer finance sector.
- Goodwill represents the difference of the acquisition cost over the net asset value of the investee.

Acquisition cost	Net asset value	Goodwill
401 564 460	93 335 990	308 228 470

- On February 12, 2026, the Monetary Policy Committee of the Central Bank of Egypt decided to reduce the overnight deposit and lending rates and the Central Bank's main operation rate by 100 basis points to reach 19%, 20%, and 19.50% respectively. The credit and discount rate was also reduced by 100 basis points to reach 19.50%.
- The West Asia and Middle East region is experiencing geopolitical tensions and escalating instability after the budget date. Management is monitoring the potential impacts on supply chains, shipping costs, and raw material prices. Although it is difficult to determine the quantitative financial impact at the present time, management is working to activate hedging plans to ensure the continuity of production operations and does not expect a material threat to the continuity of the company's business

33- Subsequent events

On April 2, 2026, the Monetary Policy Committee of the Central Bank of Egypt decided to maintain key interest rates unchanged. Accordingly, the overnight deposit and lending rates and the Central Bank's main operation rate were kept at 19.00%, 20.00%, and 19.50%, respectively. The discount rate was also maintained at 19.50%.
